Sherman Gaucia Laing

Research and Collaboration Resume

Fort Lauderdale, Florida | LinkedIn contact | Research portfolio

Independent researcher and U.S. Army veteran leading Quantum Earth Laing. Seeking collaboration in software reliability, numerical methods and reproducible research. Directs research questions and publication decisions, with disclosed AI assistance for coding, testing, analysis and documentation.

Research Experience

Founder and Principal Researcher | Quantum Earth Laing

Independent research | October 2023 - Present

Research inception is anchored to the first recorded interaction in October 2023; the Quantum Earth Laing name came later.

- Sets project priorities, reviews results and retains responsibility for published claims.
- Maintains a public record connecting source revisions, reproduction instructions, test results, corrections and contributor credit.

Selected Contributions

Microsoft Responsible AI Toolbox | October 2026

Directed AI-assisted contributions correcting data conversion, numerical serialization and error-analysis metrics. Two pull requests were merged on October 19, 2026: #2648 and #2649.

OpenAI Agents SDK | October 2026

Published reproducible reliability contributions, including a proposed empty-output correction and an optional stream cleanup helper, with synthetic regression tests and documented limits. Contribution record.

Anthropic SDK integration study | October 2026

Led AI-assisted integration testing of two existing contributors' streaming fixes: 24 added cases and 123 selected tests passing for the combined local version. Original authors and source revisions are credited. Study and evidence.

Published OpenAI and Anthropic work is offered for review; upstream acceptance and complete SDK verification are not claimed.

Military Experience

U.S. Army | Infantryman 11B | June 2008 - May 2013

Roles listed in the professional record include Rifleman, Company R.T.O. and Infantry Team Leader. Assignments include 4th Brigade, 10th Mountain Division at Fort Polk, the Joint Multinational Readiness Center and 3rd Infantry Division.
